

FORMA

FORMA is a 5 head DEDICATED ROUTING machine designed to meet the tightest routing standards and speed up the normal setup procedure thanks to its “automatic pin take off” system
The independent Z axis and the large working area 550 x 700mm (21,65”x27,6”) makes the FORMA the perfect machine for heavy duty routing processes.

The machine, equipped with S &M CNC 82, is compatible with all S&M and Excellon routing program formats.

AVAILABLE FEATURES:

- > CONTACT / LINEAR DEPTH ROUTING
- > LARGE FORMAT
