

GOLDEN 8 / 4

The ONLY 8 head, high end micro drilling machine on the market with the same footprint as a standard 6 headed machine and a large working area, thanks to our patented table disposition!

The 8 headed machine concept gives several advantages versus the traditional 6 spindle machine in terms of productivity, footprint, cost savings.

Speed and productivity is established because its solid structure, linear motors and weight saving solutions as it is equipped with a low mass carriage, light tooling plates and aluminum honeycomb table.

Need VERY LARGE FORMAT?

GOLDEN 4 with a working area up to 720 x 1140mm (28.35"x42")

GOLDEN 8 with a working area up to 720 x 570mm (28.35"x22.44")

AVAILABLE FEATURES:

- > LINEAR MOTORS
- > PANEL THICKNESS MEASUREMENT SYSTEM
- > CONTACT BIT DETECTION
- > CONTACT / LINEAR DEPTH DRILLING
- > CONTACT / LINEAR DEPTH ROUTING
- > SURFACE MAPPING DRILLING
- > SURFACE MAPPING ROUTING
- > AUTOMATIC BUSH CHANGE
- > LARGE FORMAT
